EDUCATION

Bachelor in computer application

SS collage / kathmandu / June, 2020 - Present

A Bachelor's degree in Computer Applications has equipped me with a comprehensive understanding of the fundamental principles and practical applications within the dynamic field of computing. Throughout my academic journey, I have acquired a solid foundation in programming languages, database management, software development, and system analysis.

10+2 Physical Science

vishwa niketan / Kathmandu / February, 2018 - August, 2020

SKILLS

- web development - Skillful
- Video editing - Experienced
- UI/UX Design - Skillful
- Logistics - Expert
- Digital Marketing - Skillful

Nishan Thapa

web developer ,video editor ,Social Media Marketing

I am Nishan Thapa, a dedicated IT professional and Bachelor of Computer Application student at Shahid Smarak College. With a strong foundation in web development, graphic design, and digital marketing, I bring a versatile skill set to the dynamic tech industry. My experience spans creating responsive and user-centric websites, social media marketing strategies, and developing efficient, database-driven applications.

In addition to technical proficiency, I possess a keen interest in innovative problem-solving, particularly in integrating heuristic algorithms into real-world applications. My current projects include a comprehensive travel website featuring interactive booking forms, review systems, and robust back-end development utilizing HTML, CSS, PHP, and MySQL.

EXPERIENCE

Freelancer

upwork Inc / kathmandu / January, 2022 - September, 2022

As a freelancer, I bring a wealth of experience in navigating diverse projects across various industries. With a strong entrepreneurial spirit, I have successfully delivered high-quality work while managing multiple tasks independently. My ability to thrive in a fast-paced, ever-changing environment reflects adaptability, creativity, and a commitment to exceeding client expectations.

Logistics

Kathmandu shipping and air logistics / kathmandu / August, 2020 - Present

Proven expertise in international trade, import, and export operations, with a strong track record of optimizing supply chain efficiency and ensuring compliance with global regulations. Adept at managing end-to-end logistics, negotiating contracts, and building strong relationships with suppliers and clients.

PROJECTS

Online shoes Nepal

Developed an innovative online footwear shopping platform, combining both front-end and back-end technologies to deliver an exceptional user experience. On the front end, I utilized HTML, CSS, and JavaScript to create a responsive, intuitive interface that enhances user engagement, enabling easy filtering of products by size, color, and style. The design ensures seamless navigation across various devices, offering a visually appealing and functional experience. On the back end, I implemented PHP and MySQL to build a secure and efficient system for user authentication, order processing, and inventory management. The integration between the front-end and back-end guarantees real-time updates, secure transactions, and reliable delivery tracking, streamlining the entire shopping experience from browsing to doorstep delivery.

Travel Website Development

Designed and developed a comprehensive travel website with advanced features, including a dynamic booking form, user review system, and a secure database integration using PHP and MySQL. Focused on delivering a seamless user experience through responsive front-end design and efficient back-end functionality. Incorporated heuristic algorithms to optimize travel recommendations and enhance system performance.
